Money Outta Politics

The 20% Solution

To Get the Corrupting Influence
of Money Out of Politics
in America

Money Outta Politics (MOP) is a non-partisan movement whose goal is to remove the corrupting influence of money from American politics.

Why Are Conditions Deteriorating In The USA?

If you carefully research unbiased sources of information and look past all the media hype and political spin, you will find that there is a primary, root cause behind most of the major problems facing this country today. That root cause prohibits us from making progress on solving most of our other major problems. The root cause is the corrupting influence of Money in American Politics.

It's Up To You!

If we wait for politicians to voluntarily vote for a law to take away millions of dollars for their re-election campaigns, our country will continue to deteriorate. That means it is up to "We the People" to solve the problem. The time for complaining, wishing and hoping that someone else will take care of everything is over.

We, in other words, YOU, need to take action NOW if you want to save your democracy and your country before it's too late. MOP provides the means for you to take action that can truly have a substantial positive impact.

Finally: A Solution That Empowers Citizens To Save Their Country

It's not possible you say? Oh yes it is! In recent decades, millions of people around the world risked their lives for the chance to have a democracy. Many of these movements succeeded against what seemed like insurmountable odds. Many of these heroes died for it. We still have the framework of a democracy in the USA. We don't have to risk our lives to do our patriotic duty and restore a true democracy. FINALLY, someone has developed a viable strategy to restore democracy and a government that will do what's best for the USA and all of its citizens. The plan is called the 20% Solution.
